Cost Accounting	ASC 606 & SOX	EAC / ETC Modeling	Project Accounting	SAP / ERP Systems
Manufacturing Finance	Financial Audit Readiness	Supply Chain Finance	Deltek Costpoint	Quantitative Modeling

PROFESSIONAL EXPERIENCE

Defense Counterintelligence and Security Agency (DCSA)

June 2025 - Present

General Student Trainee (Student Trainee Series 0099), GS-07

- Evaluated existing operational workflows and applied rigorous analytical principles to identify process gaps, driving cost efficiencies and supporting strict compliance with federal guidelines
- Drove efficiency by actively researching and gathering functional requirements for generative AI implementations.
- System Liaison:** Partnered with technical and IT teams to translate complex regulatory requirements into actionable system enhancements and streamlined investigative paths.
- Change Management:** Facilitated the adoption of new system features through thorough documentation and stakeholder briefings, ensuring 100% adherence to new operational protocols.

Freelance Consulting

2016 - 2020

Independent Project Manager (Media)

- Program Management:** Owned and drove complex production programs for diverse clients, managing resource allocation and creative scheduling to ensure 100% on-time delivery of assets.
- Process Innovation:** Designed and deployed new operational workflows for content creation and distribution, reducing production lead times and enhancing deliverable quality.
- Stakeholder Alignment:** Integrated cross-functional creative, technical, and business requirements to provide actionable strategic recommendations for system enhancements and process improvements.

Kelly Education

January 2025 - June 2025

Substitute Teacher

- Operations Coordination:** Managed stakeholder expectations and guided diverse groups of 30+ individuals daily, demonstrating the "persuasion and motivation" required for floor-level adoption of new processes.
- Documentation & Training:** Provided ongoing support and clear instructional directives to ensure continuity of service during rapid shifts in institutional requirements.
