PROFESSIONAL SUMMARY

MBA Candidate specializing in Finance with an Active Top Secret Clearance. Experience in federal policy compliance, quantitative modeling, and programmatic business management. Background in identifying cost efficiencies, mapping enterprise workflows, and producing financial reports for agency leadership. Seeking to support the Department of Energy's mission through budget formulation and analytical support.

EXPERIENCE

Defense Counterintelligence and Security Agency (DCSA) June 2025 - Present

Location: Albuquerque, NM | Hours per week: 20 | Role: Student Intern (Background Investigations)

- Evaluated existing operational workflows and applied rigorous analytical principles to identify process gaps, driving cost efficiencies and supporting strict compliance with federal guidelines.
- Drove efficiency by actively researching and gathering functional requirements for generative AI implementations.
- Managed large-scale datasets of sensitive personnel records under strict security protocols, ensuring audit-readiness and adherence to PII data security standards.
- Synthesized regulatory and intelligence data into operational briefings for agency leadership to support budget and operational decisions.

Kelly Education January 2025 - June 2025

Location: Albuquerque, NM | Hours per week: 20 | Role: Substitute Teacher

- Managed operational shifts in educational environments, ensuring continuity of service and meeting strict delivery milestones.
- Translated organizational requirements into actionable directives for diverse groups of 30+ individuals.

Freelance Consulting 2016 - 2020

Location: Albuquerque, NM | Role: Independent Project Manager

- Directed project lifecycles for diverse clients, managing budgets, operational schedules, and resource allocation to ensure on-time delivery.
- Utilized Microsoft Office and Adobe Creative Suite to deliver financial reports and operational documentation under deadlines.
